

## Panelized Building Systems

## About Us

### 15 Years of Experience

Since 2008, Studio Shed's panelized building system has supported a wide range of development opportunities. Our system delivers a smarter, faster, and more profitable solution versus traditional build methods.

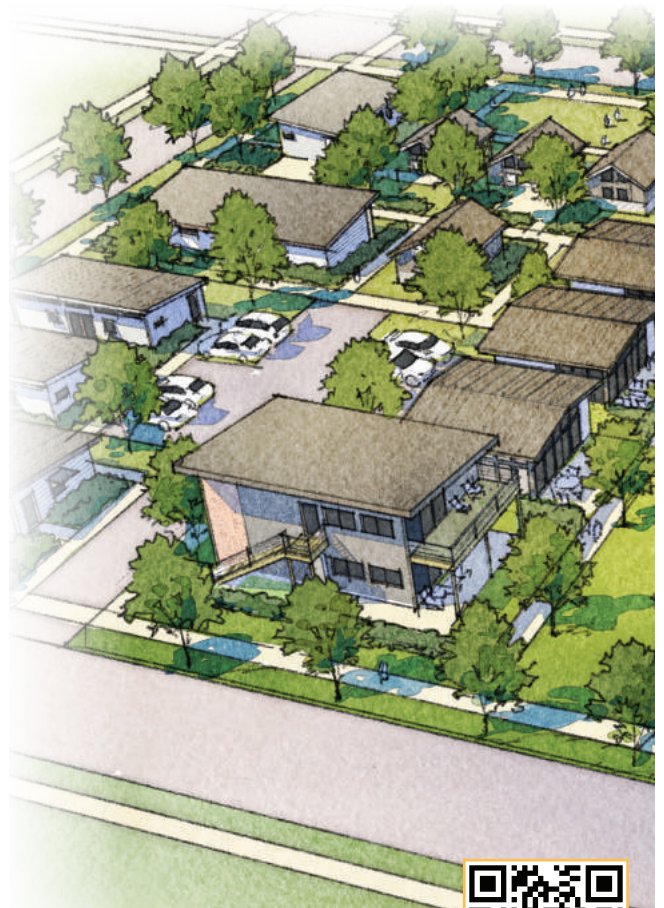

**From ADUs to commercial solutions, our projects have weathered the test of time in all 50 states and beyond.**

**Speed. Quality. Profitability. Scale.**

## Our Process

### Streamlined End to End

Our precision engineered BIM software bridges the gap between pre-construction, engineering, trades, sourcing, permitting, transportation, installation and finishing.

## Factory Production

### Built in Colorado. Delivered Nationwide.

- State-of-the-art manufacturing for industry-leading quality, speed, and material efficiency.
- Off-site fabrication of modular components is 40% faster than site-built construction.

## Solutions For

- ✓ Multi & Single-Family Homes
- ✓ Urban Infill & ADUs
- ✓ Employee & Affordable Housing
- ✓ Schools, Parks & Rec
- ✓ Resort & Tiny Home Communities
